

KITES

2008 SLINGSHOT REV

2008 Slingshot REV... a NEW standard for high performance freeride

Overview

The NEW Slingshot REV is the answer for every kiter looking for the performance requirements of a traditional "C" shape kite but more of the depower and range of a dedicated bow kite.

The REV is a 4 line hybrid kite that has a unique compact bridle and comes complete with the NEW Directdrive control bar.

The NEW Directdrive control bar eliminates the use of pulleys on the bar and features the NEW Center Safety System* which brings 100% depower safety and convenience below the bar.

So whether you are the likes of Ben Wilson smacking waves all day long in the surf or a flat water freerider looking for a Fuel-like feel with depower, look no further than the Slingshot REV!

Key Highlights

- Increased overall range: great low end in light winds yet super stable in high winds
- Easiest relaunch: suitable even for the novice rider
- Slingshot patented Onepump: the industry's original, proven and patented single point inflation system
- NEW Center Safety System*: 100% depower safety and convenience below the bar
- Lightest bar pressure: reduces elbow fatigue
- Dedicated bow depower / "C" kite performance and feel
- NEW Directdrive control bar: direct feel, speed and responsiveness
- Compact bridle: in flight stability and eliminates risk of tangle
- Ride unhooked with full depower: most useful for wave riding
- Fuel-like pull and grunt
- Massive boost: jump higher and float longer than ever before
- Slingshot Legendary Construction: bomber quality
- Lifetime Rider Hotline Support membership
